CK Power Family of Companies to Showcase Full-Spectrum Utility Solutions at Utility Expo 2025

St. Louis, MO — CK Power Family of Companies is proud to announce our collective presence at Utility Expo 2025, October 7–9, in Louisville, Kentucky. Visitors can find CK Power, Terramac, Hayes Manufacturing, Consolidated Machine & Welding, and Rocky Mountain Powertrain at Booth E708, where they'll explore an unmatched lineup of products and services designed to keep the utility industry powered, connected, and working efficiently. From reliable generators and versatile off-highway equipment to precision power transmission components and U.S.-based manufacturing solutions, the CK Power Family of Companies delivers the tools, services, and support utility crews depend on every day.

"Utility Expo is the place where the best in the industry come together, and we're showing up ready to make an impact," said JJ Costello, Co-CEO of CK Power Family of Companies. "Every product we're bringing to Louisville is designed to solve real challenges utility crews face in the field, whether that's moving more material, powering critical tools, or keeping equipment running without fail. When customers step into our booth, they'll see the depth of what our family of companies can deliver, no matter what's thrown at them."

What You'll See at Booth E708

Terramac

New D14XL Wheeled Dumper with Flatbed – Built for higher travel speeds and heavy payloads on firm terrain to streamline site preparation and utility access.

Tracked Carrier with Terex Digger Derrick– Expands utility fleet capabilities for safe and efficient construction, maintenance and restoration of overhead power.

Tracked Carrier with Vacuum Excavator – A versatile equipment solution for underground utility applications.

CK Power

CK7G-HC1 Compact Generator – 7kW portable power for hydraulic tools from leading utility brands.

CKG250TVM5 Tier 4 Mobile Generator – Rugged 180kW Prime/200kW Standby unit for dependable mobile power.

Hayes Manufacturing

Component Display – Highlighting Hayes Original and HEX Flex couplings along with bearing supported stub shafts that keep essential utility equipment operating smoothly.

Consolidated Machine & Welding and Rocky Mountain Powertrain

Representing the service side of the CK Power Family of Companies, these divisions provide critical support to the utility industry. **Consolidated Machine & Welding** partners with OEMs as a trusted U.S.-based contract manufacturing provider, offering advanced metal fabrication services to deliver parts, subassemblies, and full-scale solutions. **Rocky Mountain Powertrain** specializes in engine and equipment repair, parts, and service, helping utility contractors minimize downtime and keep essential equipment operating safely and efficiently. Together, they ensure fleets are field-ready.

Supporting the Industry Together

With five divisions working as one, the CK Power Family of Companies demonstrates the strength of combining equipment innovation, component expertise, and unrivaled service under a single umbrella. This collaboration reflects a deep commitment to the utility industry and the professionals who keep essential infrastructure running, day in and day out, and especially during times of urgent response.

Plan Your Visit

CK Power Family of Companies invites all Utility Expo attendees to visit **Booth E708** to explore equipment firsthand and connect with teams from every division. Together, these companies deliver the tools, support, and expertise to help utility crews work safely, efficiently, and with confidence.

We look forward to seeing you in Louisville this October!

About CK Power Family of Companies

CK Power Family of Companies is a thriving collective that specializes in delivering solution-focused manufacturing, distribution, and aftermarket services to the industrial sector. With a global presence across five divisions, we unite through family values and a unique corporate culture. Established in 1929, we bring forth extensive experience in product innovation, market flexibility, and customer service. By leveraging a network of shared resources and expertise, we excel in navigating business complexities, fostering ongoing innovation, and consistently delivering exceptional product support. Our commitment to upholding our values remains steady, supported by generations of dedicated employees and loyal customers. Our mission is to continuously expand its product and service offerings in the marketplace, ensuring sustained growth, relevance, and enhanced customer experience.
